

Polish language auditor

At Blue Monkeys In Space / Bodymod

Do you have a critical spirit when it comes to language? Do you come up with alternative wordings for commercials, magazine articles and internet content? Do you love the Polish language and you ace transcreations?

If yes, this job might interest you.

At our company we are looking for a Polish language auditor. We look into experienced profiles with an interest in B2C e-commerce retailers. But most importantly, someone who can adapt our material to a fresh and inspiring TOV.

The job consists of reviewing [our webshop](#) and marketing material, checking for any mistakes, inconsistencies and overall adapting the content of our communications to our brand's TOV. This project should take around 20-25 hours and can be done remotely.

You'll be working with a pre-set document and tracking software. And at the end of your audit, we would like to set you up in a meeting to give recommendations to our Polish translator.

- We are trying to find the most suitable person for this job. To find out who that should be, we'll send a translation test to all the applicants. Once the tests are evaluated, we will get back to the owner of the best translation.

If this interests you, send us an email to michaela@bodymod.eu and we will send you the test together with our Brand guidelines and our Translation manual.

Looking forward to hearing from you!
